

AN WORKSHOP ON OPTICAL TELESCOPE

MARCH 03, 2023 ; HIGH ENERGY & COSMIC RAY RESEARCH CENTRE

OBJECTIVE

This one day workshop is aimed to introduce all the participants with basic operations and construction of different types of small optical telescopes. Along with, some prototype hand on demo for making both the Newtonian (reflective) and Galilean (refractive) telescopes will be shown with an aim to train the participants to construct his/her own armature telescope with basic optical components and materials that are available in the market.

The students of UG/PG/Research level, interested in astronomy/sky watching/optical instruments, are invited to apply for this one day workshop through the Registration link: <https://forms.gle/NENJbpU93voaoHyM7> positively within 12 am of 26th Feb 2023. Out of the applicants, 20 candidates will be selected on merit and first cum first serve basis. The selected candidates will be informed by e-mail on 27th Feb 2023.
