Online Education

|---|--|--|---|
| 1. Does all programs/courses were completed on time. | No | | |
| 2. Measures taken to complete the syllabus of courses and programs. | The 2020 pandemic helped the whole education system to move towards a technology-driven, more effective learning scenario. The University of North Bengal is not an exception to this journey. But the journey was really eventful due to the socio-economic background of the catchment area of the University and its students. So extreme care has been taken not to widen the digital divide, and at the same time provide the academic community with access to the academic resources on all most real-time basis. The University has initiated the journey by modifying the University website by converting it to a more user-friendly secure option for the students with accessible resources, with the priority to open access. The second drive was to create institutional email id for the whole academic community including the researchers with a goal to enjoy all the facilities provided by GSuite for Education. These actually boost the overall learning system by ensuring realtime classrooms through Google Meet, near-real-time learnings through Youtube, clearing of doubts on Gmail, working on Quizzes and assignments on Google Class Room. In addition, the University faculties were also active to help the students over popular social media. The examination was conducted in a hybrid model with a facility for the student to share their answer scripts over the internet or physically in a nearby affiliated college maintaining all COVID 19 protocols, on a truncated syllabus decided by the respective board of studies. The academic community has given access to the University subscribed and published journals from any geographic corner of the globe using secure VPN connections, developed in-house. The similar access was also given to the researchers to access the institutional information repository and High-Performance Computing facility and Library OPAC browsing facility from home. We are still on the learning curve and trying to modify ourselves to a better version of us every day. | | |
