SSL VPN Client Setup manual to access the e-resources of Library (for Windows Users)

Step-1: Open <https://42.104.73.50:4443> in browser and enter username / password of VPN user

Step-2: On next page click on “**Download Sophos Connect Client and VPN Configuration**”

Step-3: Run the installer **SophosConnect_2.2.90_(IPsec_and_SSLVPN).msi**

Click Install after check box I accept the Sophos End User Terms of Use and acknowledge the Sophos Privacy Notice and follow the wizard.

Click Yes and follow the wizard.

Click Next and follow the wizard.

Click Finish to complete the installation.

Step-4: Once installed, start the VPN after Click on Sophos Connect Icon in your Desktop.

Double Click on Sophos Connect.

Click on Import Connection.

Select **ssl_vpn_config** and Click on **Open**.

Click on **Connect**.

Sign In using the same credentials for the user portal.

Step-5: After use the VPN, Disconnect the VPN Client. (Auto Disconnect Idle timeout 15 Minutes)

Now the user can browse the e-resources of NBU Library (listed by the library authority) through his/her web browser.
